Thermal articles are very popular. They offer the convenience of not having to drink your coffee or tea at home, but taking your drink with you on the road! The Geo 350 ml copper vacuum insulated tumbler is ideal for printing your message or logo. Thanks to the many possibilities to print on the thermos article, you can give your brand the publicity boost it needs. The construction of this mug prevents condensation on the outside. The thermal mug also has a slip lid with a sliding closure. The delivery takes place in a gift box. Because this thermos product is made of stainless steel, you don't have to worry about it breaking. And being so solid, it won't leak easily! On top of that, the product has a weight of 193 grams. So you know you have a quality article in your hands with good insulation properties. Most thermos flasks and mugs aren't dishwasher safe. This is due to their construction and insulation. But the lid can often go in the dishwasher. You can check this in the instructions. A thermos is just the thing for when you're on the go! The stylish look makes it a functional, beautiful product to give away.
