Weight: 230.00 g.
Dishwasher proof No

Power banks are an ideal gift to give away. Everyone has at least one phone that needs to be charged frequently. You use the Umbra 10.000 mAh wireless power bank more often than you might think, for instance during holidays, while on the road or when spending a day at the beach. This power bank has a capacity of 10000 mAh. This means that a device with a battery of this size can be fully charged once. The Umbra powerbank includes a 10,000 mAh class A lithium polymer battery, a wireless charging transmitter/receiver and an integrated 3-in-1 cable for all Apple® iOS and Android devices. Devices can be charged wirelessly or by cable. This powerbank has a wireless charging function - for compatible mobile devices - as well as an integrated 3-in-1 cable for all Apple® iOS and Android devices. In addition, the device has 5V/2A output for wired, input: 5V/0.8A wireless, output: 5V/1A wireless. It supports wireless charging up to 1A of devices equipped with this function. An external charging receiver or receiver case is required for devices that cannot be charged wirelessly. Micro-USB charging cable included. In most cases, the plastic case does not need to be removed for charging. Because this power bank is made of ABS plastic it is hardly susceptible to impacts and can be carried in any pocket. Because it weighs 230 grams, you can count on a strong power bank! The biggest advantage of laser engraving is the high-quality print, it won't fade quickly due to its high wear-resistance. From budget power banks to premium models in different shapes and sizes: we have it all! Need help making your choice? Then get in touch with us!
