Whether you're going to work or out for the day, you always have your keys with you. A key ring with your logo will therefore travel wherever you go. The No-Contact Stylus Tool keyring is perfect for printing your message or logo. Thanks to the many printing options on the key ring, you're sure to boost your brand's image. This keychain features a metal key ring with a non-contact tool. The tool is equipped with a rubber pointer and a handy bottle opener. By using the pointer, you avoid direct contact with surfaces such as cash registers, ATMs, elevator buttons, and digital displays. This tool lets you open doors without having to touch them. A laser engraving gives this keychain with logo a particularly elegant look. After you have sent us your logo for the key ring, we'll send you a free digital proof. Is this approved? Then we will immediately start the production.
