WoW! Durable A5 notebook with a cover made from recycled milk cartons (up to 70%). With 70 sheets of cream-coloured, lined certified paper (80 g/m²), a handy pen loop, elastic closure and a reading ribbon. Bound in a strong wire-o-binding. The milk cartons (the well-known Tetra Pak packaging) consist of aluminum, paper and plastic. These materials are separated from each other and the leftover paper is used to make the cover of this notebook.
