

Whether you're on your way to work or on a day trip, a mug or bottle is always useful. An excellent time to reinforce your brand exposure with a printed thermal article. Thermos flasks and mugs are products that last a long time. Recipients take them with them to work, in the car or even on holidays. Take full advantage by printing your logo and company name on the Lebou 360 ml copper vacuum insulated tumbler. This thermal mug has a lid with a locking function. A special construction prevents the formation of condensation on the outside. The delivery takes place in a gift box. This product is made of stainless steel, PP plastic, so you don't have to worry about the strength of the product. It won't break easily. On top of that, the product has a weight of 208 grams. So you know you have a quality article in your hands with good insulation properties. Most thermos flasks and mugs aren't dishwasher safe. This is due to their construction and insulation. But the lid can often go in the dishwasher. You can check this in the instructions. Once you have experienced how easy a thermos is, you'll never want anything else. Your customers will experience the same with a printed thermos.
