 Material: Bio PE  
 Capacity: 500 ml  
 Height: 19.60 cm.  
 Diameter: 7.70 cm.  
 Weight: 80.00 g.  
 Dishwasher proof Yes

The Shiva Bio looks the same as the Shiva, except this version is made of biodegradable polyethylene. Light, heat and moisture have no effect on the quality of the bottle. The decomposition process only starts once it is in a compost heap or landfill, and takes 1 to 5 years. This bottle is the favourite among the professional bicycle racers on our partner teams.
