

When you're on the road, it's good to know that your phone is always sufficiently charged. That's where a printed power bank comes in handy! You use the Notos 2.200 mAh solar charger more often than you might think, for instance during holidays, while on the road or when spending a day at the beach. The most important thing about power banks is the strength of the battery. This one has 2200 mAh. The compact solar powerbank can be attached to any window with a simple twist to give mobile devices a solar energy boost. The powerbank has an input and output of 5V/1A. It comes with a micro USB cable. This power bank is made of acrylonitril butadiene styrene (ABS), polyvinylchloride. Weighing only 140 grams, you will hardly feel that you're carrying it around. Furthermore, you can choose to have your logo printed on the power bank by laser engraving, it is high quality and is long-lasting. With our many years of experience, our staff know better than anyone which power bank is the perfect match. So let us advise you on the best way to print power banks.
