

It's always convenient to have a power bank ready in this digital age. You never know when you might need to recharge your mobile phone. You use the Ultra Thin 4.000 mAh Wireless 5W Charging Powerbank more often than you might think, for instance during holidays, while on the road or when spending a day at the beach. This power bank has a capacity of 4000 mAh. This means that a device with a battery of this size can be fully charged once. This powerbank has a USB port and a 5W wireless charging pad. The integrated LEDs indicate the charging status of the powerbank. The micro-USB port input and output offer 5V/2A. The wireless output is 5W with 5V/1A. This power bank is made of acrylonitril butadiene styrene (ABS). Because it weighs just 180 grams, you can easily take it anywhere. Haven't decided yet? No problem, you can always call us, send us an e-mail or contact us via chat.
