Card holders are used almost every day. Standard aluminium RFID cardholder - an article that draws a lot of attention and therefore also to your company. The material of this credit card holder is Aluminium, Acrylonitril Butadiene Styrene (ABS). This card case is RFID protected. This means that the cover protects the cards, which are mostly activated for contactless payment, from unauthorized access. The holder can store up to 10 cards. A laser engraving gives this logo card holder a particularly elegant look. We have many different credit card cases that can be printed with your logo at reasonable prices.
