

Want to make an impression with imprint? Then a card holder is definitely the right thing for you. C-Secure XL RFID card holder & wallet - an article that draws a lot of attention and therefore also to your company. The material of this credit card holder is Aluminium, Polyurethane. Most cards have so-called RFID technology, in which a chip can transmit data "contactless", as is used in many places for payment. This card case protects against unauthorized access to the card by third parties. The holder can store up to 12 cards. Laser engraving is possible on this card case. This technology is particularly durable and scratch-resistant. We have many different credit card cases that can be printed with your logo at reasonable prices.
