

Everyone knows them: printed T-shirts. You see them at festivals, bachelor parties, company outings, promotional events, at clubs, gyms and so on. The Iqoniq Yala women recycled cotton t-shirt is therefore an excellent choice. When it comes to clothing, the material is crucial. This t-shirt is made of 30% recycled & 70% biologisch katoen. This shirt has the Oeko-Tex seal. There are various Oeko-Tex certificates, but all of them confirm that all stages of textile processing have been tested for health safety and that the production facilities have been tested for socially and environmentally compatible production conditions. By the way, this shirt was made with an AWARE™ tracer. AWARE™ guarantees that genuine recycled fabric materials have been used and that the water reduction claims are correct. This is done through disruptive physical tracers and blockchain technology. So you're proven to save water and use real recycled fabrics when you choose an Impact item. 2% of the revenue from each Impact product sold are also donated to Water.org. The t-shirt has a nice round neckline from self-fabric. Due to the nature of recycled yarns, impurities and color variations may appear. Important to know; this is a ladies shirt. This shirt is also available in plus sizes. Do you already know how many T-shirts with logo you need? Obviously the full order quantity can be the sum of all needed sizes. But remember: if you order a larger quantity, the price will be more favourable. T-shirts are also particularly popular for sponsoring clubs, youth groups or associations.
