

Are you aiming for maximum visibility at a competitive price? Then printed T-shirts are always an excellent choice. No matter what the occasion, this Iqoniq Koli kids recycled cotton t-shirt is a great choice. When it comes to clothing, the material is crucial. This t-shirt is made of 30% recycled & 70% biologisch katoen. This shirt has the Oeko-Tex seal. There are various Oeko-Tex certificates, but all of them confirm that all stages of textile processing have been tested for health safety and that the production facilities have been tested for socially and environmentally compatible production conditions. By the way, this shirt was made with an AWARE™ tracer. AWARE™ guarantees that genuine recycled fabric materials have been used and that the water reduction claims are correct. This is done through disruptive physical tracers and blockchain technology. So you're proven to save water and use real recycled fabrics when you choose an Impact item. 2% of the revenue from each Impact product sold are also donated to Water.org. The t-shirt has a crew neck with 1x1 rib. Due to the nature of recycled yarns, impurities and colour variations may appear. These printed shirts could soon be arriving at your door - if you mix the different sizes, of course. Do you really want a shirt, but aren't sure which one yet, or do you have further questions? Our sales consultants are happy to help!
