The Xtorm AirWave audio adapter lets you use your own wireless earbuds or headphones with wired audio systems, perfect for the gym, in-flight entertainment, or in-car audio. Simply plug the compact AirWave into a 3.5 mm audio jack and connect it via Bluetooth® to your wireless headphones. You can even pair two sets of headphones at once, making it easy to listen to music or watch movies together. Lightweight at just 17 grams, the AirWave is easy to carry and offers up to 9 hours of use on a single charge, with full recharging in just 2 hours via USB-C (5W). It supports both Transmitting (TX) and Receiving (RX) modes and has a wireless range of up to 10 metres, turning wired audio into wireless freedom wherever you are.
