

Reusable coffee-to-go cup with lid from the Circular&Co brand. Made from 100% recyclable, sturdy PP. This stackable cup not only looks attractive, the design also puts the focus on functionality. The ribs disperse the heat of the drink and provide a comfortable grip. In addition, the cup has a quick-dry base. The lid with drinking opening prevents spills. Fits into the standard drink holder of cars, so perfect for on the road, but also as a cup at the coffee machine. The perfect alternative to the disposable coffee cup. This cup lasts more than 500 wash cycles and is recyclable up to 6 times. After only 2 uses, the CO2 emissions of the coffee-to-go cup are offset compared to a single-use alternative. By switching to a reusable cup, billions fewer cups will end up in landfills. This beautiful cup is Food Safe, BPA-free and Melamine-free. Top rack dishwasher safe only. Capacity 227 ml.
