

Rechargeable solar lamp from the Woosh brand. This lamp is equipped with an integrated solar panel on the top of the lamp and a sturdy, imitation leather handle. The milky white plastic shade dampens the LED lamp slightly, emitting a soft, warm light. With its simple design this modern, cordless lamp is easy to move and so can be used in any environment, both indoors and outdoors. This lamp is charged by sunlight. If the panel has not received enough energy, the lamp can be charged with the included USB-C charging cable. It can also be controlled from a distance with the included remote control. A beautiful eye-catching lamp for atmospheric moments indoors and outdoors. Includes a rechargeable battery (800 mAh) and a user manual.
