Length: 10.20 cm.

Width: 2.40 cm.

Height: 2.40 cm.

Weight: 105.00 g.

Power banks are extremely popular these days. They are perfect for when you are travelling and your phone suddenly runs out of power. You use the Powerbank 2000 Wood charger more often than you might think, for instance during holidays, while on the road or when spending a day at the beach. The most important thing about power banks is the strength of the battery. This one has 2000 mAh. This powerbank has an input of 5V 500mA and an output of 5V/1000mA. The delivery includes a USB/micro USB charging cable and multilingual instructions per piece in a box. The material used, wood, makes the power bank particularly robust. Would you like to show that your company makes environmentally conscious and responsible decisions? Then this power bank with logo is the right decision. This power bank has a weight of only 105 grams. So you can easily take it anywhere. The biggest advantage of laser engraving is the high-quality print, it won't fade quickly due to its high wear-resistance. And if you think that printing a power bank is expensive, IGO Promo proves otherwise. We can print power banks cheaply and with outstanding quality.
