Torches are popular promotional gifts and are versatile in their uses and the functions they offer. You can't go wrong with the Cree-LED 3 Watt torch. The torch includes LED lights. These LEDs are very bright. The flashlight requires AAA. Of which she uses exactly 3. The required number of batteries are included. A logo can be heavily used on items such as flashlights that tend to end up in handbags, jacket pockets or trouser pockets. Therefore, we recommend an indestructible laser engraving. Regardless of your budget, you are sure to find the right torches with us. Send us your logo and you will receive a digital proof before production starts. We only start production once you have confirmed this.
