 Capacity: 500 ml  
 Height: 22.50 cm.  
 Diameter: 5.70 cm.

Weight: 530.00 g.  
 Dishwasher proof No

A reusable drinking bottle from the Bottle Up brand, made from sugar cane waste and filled with English spring water. Leakproof. Content 500 ml. Bottle Up encourages you to keep refilling your bottle. The affordable sustainable solution to single-use plastic. When you need water on the go, but don't want to leave any waste behind: Bottle Up. The sugar cane bottles are BPA-free and easy to clean so when you're finished you can refill your bottle with tap water and use it again and again. Drink the water, keep the bottle! In the U.K. our spring water comes from Elmhurst spring in Staffordshire. The water from this source is naturally mineralized through glacial stratus formed more than 100,000 years ago. Our water partners hold a BRC 'A' accreditation certificate and are regularly audited internally and externally.
