## Features

Minimum quantity: 100 Unit(s)

Length: 5.80 cm.

Width: 3.80 cm.

Height: 1.60 cm.

Weight: 66.00 g.

Wow! A mini ecosystem, protecting the seeds from birds, ants and slugs and giving them nutrition as they germinate and grow. The seeds consist of a mix of: A bee mix which contains corn marigold, forget-me-not, white campion, common poppy, cornflower, corn chamomile and wild marjoram. Our mission is to help and inspire more people to grow native wildflowers in gardens, balconies and window boxes so that we can help increase our bee, butterfly and other garden wildlife populations. They need our help!
