Material: coffee ground / orange peel
Length: 4.60 cm.
Width: 4.60 cm.
Height: 18.00 cm.
Weight: 290.00 g.

Wow! Bottle with natural, liquid soap. With recycled coffee grounds or orange peels as ingredients. Vegan and free of animal testing. Made in Holland. Content 250 ml. Every year, 46 billion kilos of orange peels and about 50 billion kilos of coffee grounds are thrown away worldwide. Both are by-products of our daily consumption of fresh coffee and orange juice. What is left over is simply thrown away. This soap is made from leftover orange peels and coffee grounds with a pleasant natural fragrance, a natural scrub, the cleansing power and colour of coffee and citrus fruits. From organic waste to soap.
