100% sustainable Sproutworld pencil with a message for a greener planet. This unsharpened pencil is made from wood. Attached to the end of the pencil is a capsule (made from cellulose) which contains seeds. Once the pencil has become too small to use, plant the pencil along with the capsule into some soil. After 2-3 weeks, the seeds germinate and grow into beautiful flowers or fragrant herbs. Choose from sunflowers, forget-me-nots, arugula or basil. The name of the chosen plant will be engraved onto the pencil. The pencil contains no lead and is therefore completely safe. Made in Europe. Beware: there is no card of instructions included. You can order these under number W387.
